

EasyTight™

DUAL-SIDED RATCHET STRAP

PUT THE RATCHET WHERE YOU NEED IT.

The patented dual-sided ratchet strap that gives you more control, better positioning, and easier load securing.

BASED ON U.S. PATENT NO. 11,313,437 B1 | DUAL-SIDED RATCHET STRAP APPARATUS

A SMARTER WAY TO SECURE THE LOAD

Traditional ratchet straps can leave the ratchet buried beside the load, low in the truck bed, or in a hard-to-reach spot. EasyTight™ changes that.

Our patented dual-sided design features an independently adjustable cam side that lets you reposition the ratchet before tightening. Once positioned, the cam self-locks under tension to help hold the adjustment securely.

Position. Tighten. Go.

BETTER RATCHET PLACEMENT

Adjust the strap so the ratchet sits where it's easier to see, reach, and operate.

SELF-LOCKING CAM

The cam is designed to lock under tension to help keep your adjustment secure.

QUICK AND EASY TO ADJUST

Pull the cam strap through the mechanism to fine-tune the ratchet position.

BUILT STRONG

Heavy-duty components and durable webbing designed for the demands of real-world use.

DUAL-SIDED DESIGN

Ratchet strap on one side, adjustable cam strap on the other—maximum versatility.

LESS FIGHTING WITH THE STRAP.

BETTER POSITIONING.

EASIER LOAD SECURING.

PATENTED DESIGN
U.S. PATENT NO.

EASYTIGHT™ IN ACTION

LUMBER & BUILDING MATERIALS

Position the ratchet up high and within easy reach—no more crawling around the load.

LANDSCAPING EQUIPMENT

Adjust the strap to clear obstacles and operate the ratchet comfortably.

CAMPING GEAR & ROOFTOP CARGO

Get the ratchet where you need it for safer, easier tightening.

TOOLS, EQUIPMENT & MACHINERY

Fine-tune the ratchet position for balanced, secure loads every time.

FURNITURE, BOXES & HOUSEHOLD LOADS

Make securing everyday loads faster, easier, and more convenient.

BUILT FOR REAL-WORLD HAULING.

Trusted by professionals and DIYers who demand strength, versatility, and smarter design.
